

Dodwell Strata Management Website Design

Vancouver Interactive Agency Develops Innovative Online 'Solutions' for Popular Strata Management Company

KIMBO Design Inc. collaborates with Dodwell Strata Management to create a custom-designed website for clients searching for the optimal online property management experience.

Vancouver, BC, Canada – July 11, 2011 – Vancouver branding and website design agency KIMBO Design Inc. is pleased to announce the development of a custom-designed website for one of the city's most reputable property management companies.

KIMBO Design applied its cutting-edge website design solutions to create a contemporary online experience for Dodwell Strata Management's clients.

The result was www.dsml.ca, reflecting Dodwell's professionalism and promise to "find better solutions" and deliver premium customer service. Dodwell Strata Management is dedicated to meeting its clients' property-specific needs. With that in mind, KIMBO Design's vision was to collaborate all of Dodwell's offerings and services into a user-friendly website for clients desiring effective property management services.

The website speaks directly to busy Dodwell clients who seek a stress-free online experience where they can access important facts and resources.

In addition to creating a visually stunning and easy-to-navigate site, KIMBO Design went one step further by including superior usability functions.

With just a few clicks, property owners, strata council members, renters, lawyers and realtors who visit the Vancouver strata management company's website find information quickly and easily.

KIMBO Design's branding and design experts developed the footer image of the Vancouver skyline with a cool and warm colour palette to enhance the site's calming visual impact.

"Every graphic was created from scratch and edited to fit the client's brand," says Kim Pickett, Principal / Creative Director of KIMBO Design. "It helps give the website an edge and stand-out online presence."
